Competence in agricultural bearing solutions

- > special solutions
- > full service support

NKE – bearings for application in the agricultural industry – efficiency and performance

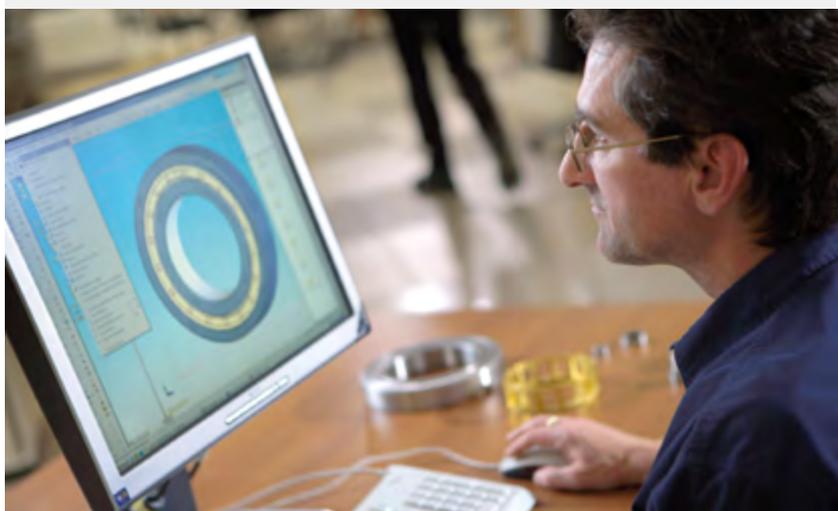

The intensification of agricultural production entails an even increasing mechanisation and automation. Correspondingly the specifications for bearings in this sector have increased tremendously. NKE Austria offers a range of products to meet these challenges with a clear focus on application specific solutions.

Comprehensive commercial and technical services

NKE AUSTRIA provides a wide range of commercial and technical services, such as:

- > application engineering support
- > design and development
- > calculations
- > testing
- > logistic services (e.g. just-in-time delivery) to meet your demands.

Experienced NKE engineering and sales teams provide you with comprehensive services.

NKE – offering a wide bearing range

Our products are characterized by delivering a balanced cost benefit ratio and economic maintenance.

By integrating components and parts into the bearing design an optimized utilization of available space can be achieved resulting in application specific solutions.

NKE bearings in agricultural machinery stand for:

- > operating reliability
- > robust design
- > application-oriented sealing and lubrication concept
- > easy to use and mount

NKE bearings are used in standard and special applications i.e.:

- > agricultural machinery – specific drive systems (vehicles and PTO gears)
- > soil working machines (disc harrows, sowing machines,...)
- > chain drives

NKE bearing types in agriculture:

- > deep groove ball bearings
- > angular contact ball bearings
- > taper roller bearings
- > used as standard types and in bearing units

NKE headquarters in Steyr – more than 10,000 m² for core functions such as engineering, production, logistics, quality assurance, marketing and sales

NKE AUSTRIA

NKE AUSTRIA GmbH is a premium bearing manufacturer with headquarters in Steyr, Austria. The company was founded in 1996 by a group of senior staff members of the former Steyr Wälzlager.

NKE manufactures both standard and special bearings for all industrial applications. Our core competences – engineering, product development, final processing of components, assembly, quality assurance, logistics, sales and marketing – are centralised in Steyr. The site is accredited with ISO 9001:2008 (design, development, manufacturing and distribution of bearings), ISO 14001:2004 and OHSAS 18001.

For more information please contact:

NKE AUSTRIA GmbH
Im Stadtgut C4,
4407 Steyr, Austria
Tel: +43 7252 86667
Fax: +43 7252 86667-59
office@nke.at
