

### Description

Highly effective for the release of seized and rusted components. A clear low-viscosity oil based product used to aid the removal and freeing of seized nuts and bolts, hinges, locks, tools and fittings with a fast penetrating capillary action. Leaves a clear protective film to guard against further corrosion.

### Benefits & Features

- Low viscosity for maximum penetration
- Easy to apply and works quickly
- Leaves a protective film against corrosion
- Also suitable for light lubrication duties
- De-watering capability
- Petroleum wax reinforced for persistence

### Directions for Use

Shake can well before use. Spray onto part from 15-30cm and allow to penetrate for a few moments.

### Technical Data

Appearance:	Virtually clear, low viscosity liquid drying to a thin greasy state
Odour:	Slightly sweet
Contents:	Blend of petroleum distillates, oils and hydrocarbon propellant. No silicones or chlorinated solvents
Storage:	Below 50°C
Flash Point:	38°C
Relative Density:	0.805
Solubility:	Insoluble in water
Temperature Range:	Designed for use at ambient temperatures
