

### Description

Solvent based weld anti-spatter release spray. A special non-silicone formulation ideal for use on all types of welding equipment to prevent the adhesion of welding spatter. It can be applied to workpieces, nozzles, shrouds, jigs and tools and enables free gas flow in inert gas welding.

### Benefits & Features

- Non-chlorinated
- Non-silicone – can be used with products that require finishing
- Rapid drying
- Prevents adhesion – spatter easily removed
- Non flammable
- Colourless – non-staining
- Does not gum up when subject to heat

### Directions for Use

Shake can well before use. Hold can upright and spray a thin, just visible, even film from a distance of 30cm. Normal industrial degreasing methods will remove any residual film if necessary.

### Technical Data

Appearance:	Pale yellow clear liquid
Odour:	Slight vegetable oil
Contents:	Blend of refined vegetable oils in a petroleum naphtha with butane, isobutane and propane propellant
Storage:	Below 50°C
Flash Point:	<-20°C
Solubility:	Insoluble in water
Relative Density:	1.198
